3 FORMATS

• Top Rectangle – 1 month

• Dedicated E-mail Blast

• New Issue Announcement Newsletter – 3 months

• Top Rectangle – 1 month

Format / taille : 300 × 250 px
Fichiers acceptés : JPG, PNG, GIF (statique ou animé) / HTML5 / code adserver tiers
Interdits : Flash
Poids max : 150 KB
Résolution : 72 dpi
À fournir obligatoirement :

- 1 **Click-through URL** (lien de redirection)
- Tous les éléments / scripts **compatibles HTTPS**
- Si adserver tiers : **code** fourni dans un **.txt**
  Option : **Anim (si GIF/HTML5) :** max **15s par boucle**

• Dedicated E-mail Blast

Livrable : 1 email **HTML** prêt à envoyer**:**

- Largeur max **600 px**
- Mise en page en **tables HTML**
- **CSS inline** uniquement
- Images **hébergées** (URLs) + **ALT text**
- Pas de JS / pas de vidéo intégrée (si vidéo : image + lien)
- CTA : **bouton + lien texte** de secours
  À fournir :
- **HTML final**
- URLs des images (ou dossier export à héberger)
- **Lien principal** (CTA) + liens secondaires éventuels

• New Issue Announcement Newsletter

Format mentionné : Midway Banner **550 × 260 px**

- 1 bannière **550 × 260 px** (JPG/PNG/GIF ou HTML5
- **Poids léger** (viser <150 KB si même logique)
- 1 **Click-through URL**
- Version statique recommandée + éventuellement une version animée (si autorisée)

• Top Rectangle – 1 month

Frame 1 -
ATELIER
Patch. Play. Discover.
A modular sandbox for endless sonic ideas.
From INA GRM + logo

Frame 2 -
Standalone + Plug-in for DAWs
VST3 / AUv2 / AAX
macOS — Windows
Modules: **Processors + Modulators** (freely chainable)

Frame 3 -
5 Key Features
• **Polyadic Modulation** (everything modulatable)
• **Multichannel** (stereo → 64+)
• **Simple, deep modules**
• **Hybrid workflow** (gen + process)
• **Parameter morphing** (snapshots → evolve)

• Dedicated E-mail Blast

ATELIER (logo) + signature **INA GRM Tools** (logo/texte)

2/
Patch, play, discover.
Atelier is a sandbox for the curious — a platform for exploring endless sonic ideas.
Modular at its core, multichannel from the ground up: a modern tool for sound adventurers.
Atelier doesn't hand you the sound — it gives you everything you need to uncover it.

3/
Built on decades of research in audio signal processing and electronic lutherie,
Atelier is the new software platform in the **GRM Tools** series — created by **INA GRM R&D**,
in close connection with GRM's avant-garde composers and sound designers.

4/
What's in the box

- Standalone application + DAW plug-in
- Formats: **VST3, AUv2, AAX**
- **macOS** (Windows support coming soon)
- A set of freely chainable Modules:
  Processors (generate/transform sound) + **Modulators** (assignable to any parameter)

5/
Key features

1. **Polyadic Modulation Engine** — fast, expressive evolving patches. Everything modulatable, no artifacts.
2. **Full Multichannel Support** — create in stereo, quad, or **64+ channels** without changing your workflow.
3. **Groundbreaking yet simple modules** — from granular delays to multi-playhead samplers.
4. **Hybrid Workflow** — sound generation and processing in one place.
5. **Parameter Morphing** — transition between snapshots or randomize with smooth interpolation.
